

Workshop

12th April 2011 (09.00 – 16.00)

Viking Ship museum, Roskilde, Denmark

Aim: The workshop gives the possibility for stakeholders, archaeologists, and conservators to get hands on experience with practical demonstrations and informal discussions

How: The participants will be divided into 4 groups and circulate between the different demonstration rooms (1 hour for each demonstration).

Demonstrations (09.00 – 15.00)

Group	Demonstration
1	Shipworm live. Find it and touch it
2	Wood degrading fungi and bacteria Touch the wood and have a look in the microscope to see the amazing decay patterns
3	Demonstration of GIS model for prediction of decay by shipworm. Try the simplified version
4	In situ protection methods and the material used is demonstrated on land

Guided tour (15.00 – 16.00)

The Viking Ship museum
